Those Dutch Bulbs are here again!

LIBRARY
SEP 1954
U.S. Department of Agriculture

Shipments from Holland are early this year. This is good for it lets you get Daffodils, Crocus, Eremus and Hyacinth in the ground as early as possible. (Tulips can go in a little later.)

Our bulb collection is the result of years of U.S.A. testing — we guarantee every one. It is not the usual collection of familiar varieties; we like them, but we like these later developments in Dutch Bulb breeding even more. You will find that they are no more expensive than run-of-the-mill varieties.

Select the colors you like—solid or blending—and we will send you the following collections.

Collection of Ideal Darwin, Breeder, Cottage, Lily and Peony Tulips with a few Parrots thrown in for good measure. 60 Bulbs of 10 Varieties (Regular retail value \$13.50) for \$8.95.

Collection of Botanical Tulips. 48 Bulbs of 8 Varieties (Regular retail value \$12.50) for \$9.95.

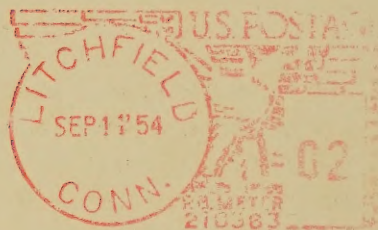

Collection of Dutch Crocus. 100 Bulbs, 4 Varieties. (Retail value \$7.75) for \$5.95.

Collection of Hyacinth. 24 Bulbs, 4 varieties. (Reg. Retail \$8.50) for \$7.75.

Collection of Daffodils. 50 Bulbs: 5 varieties with Pinks, Whites and John Evelyn Hybrids all represented (Reg. Retail \$18.95) for \$14.95.
